

THERA GEL

Topical Healing Formula

DESCRIPTON:

THERA GEL is a remarkable all-natural product for topical application producing **dramatic results in rapid healing time**. Similar in its efficacy to Vira Gel: HC, this has effectively been used for **canker sores, insect bites & stings, burns, eczema, psoriasis, open sores, lesions, acne, nail fungus, athlete's foot, rashes and skin irritations accompanied/itching**. Everyone should have this remarkable all purpose product in their home for a **multitude of skin disorders**.

BENEFITS:

- Speeds up the healing and recovery time of viral outbreaks dramatically.
- Economical when compared to prescription drugs while being even more effective.
- Has no uncomfortable side effects such as skin irritation or pain with application.
- Application is safe and easy as a clear gel that provides a cooling sensation with immediate relief.
- A natural organic extract that starves the virus to elimination with no side effects.

EFFICACY: HOW IT WORKS

THERA GEL contains the Active Ingredient P2-DG (**2DG-PH 2-Deoxy-D-Glucose**), a structure analogous to glucose of natural organic origin. Cells live off glucose, which is produced by the food we eat. If we prevent the glucose from entering the cell, the cell will starve to death. When **THERA GEL** is applied directly to an affected area, 2-DG is fed to the infected cells causing rapid cellular changes producing noticeable results in just hours from application. **THERA GEL** stops viral, bacterial and fungal cell functioning through deprivation of its food supply. When the infected cells receive 2-DG instead of glucose, they will die off along with the viruses and parasites that feed off them. The virus is starved to elimination. New healthy cells will then grow, replacing the old ones.

INGREDIENTS:

Organic Whole Leaf Aloe Vera Gel, P2-DG (2.5%) and Natural Vitamin E

Manufactured in China in a [cGMP](#) environment.
