

"From diabetes to hypertension, cancer to drug addiction, stroke to memory and disorders and male impotence, there's probably no pathological condition where Nitric Oxide does not play an important role. With over 82,000 recent studies to its credit, Nitric Oxide, has become something of a "biochemical superstar" since the discovery of its vascular effects in recent years. The more researchers study it, the more clinical implications they find. We now recognize that many widespread diseases like cardiovascular disease, hypertension, high levels of bad cholesterol, diabetes, and erectile dysfunction involve abnormalities of Nitric Oxide production." **Dr. Lu MD,PhD** is a leading expert, treating physician and published researcher in "how nitric oxide improves human health." <<<< Listen to Dr. Lu, MD, PhD

Why Stronvivo?

"Dr. Stephen Center recommends Stronvivo to all his patients..."

"I am an integrative medicine physician in San Diego, since 1986. I am aware of the importance of optimizing Nitric Oxide levels for purposes of enhancing circulation throughout the body. Before Stronvivo, I used to recommended an arginine based product in a powder form. I found that after a month of Stronvivo use nitric oxide levels had improved to optimal.

I have noticed that that the Stronvivo supplement produced a more dramatic improvement in salivary nitric oxide levels. This happened in my case and I was quite pleased!

For these reasons I am now recommending Stronvivo for all of my patients with the need for optimizing nitric oxide levels, be it ED symptoms, poor circulation to the hands and feet, fatigue, need for safe athletic performance enhancement, hypertension, and other conditions, all of which can be potentially helped by this product."

Stephen A. Center, MD Fellowship Trained Integrative and Age Management Medicine BodyLogic MD of San Diego

Stronvivo is an Informed Choice certified nutritional supplement comprised of natural, verified, pharmaceutical-grade ingredients designed to improve the health of the endothelium, stimulate the production of nitric oxide, improve circulation, boost energy and inhibit platelet aggregation and adherence. Stronvivo supports healthy hormone levels and is the perfect companion for testosterone. Vitamins for your blood vessels. Nitric Oxide booster that improves circulation. Stronvivo is safe, natural, certified and effective.
